Cyberdyne Systems

Investor Memo — First Quarter

Q1 2026

Investor Memo · Confidential
Submitted: April 8, 2026

Opening Letter

Dear investors — Q1 was a foundation quarter. We closed three multi-year platform expansions and kept opex growth below revenue growth for the third consecutive period.

Net revenue for Q1 2026 was $31.5 million. For context, Q4 2025 net revenue was $30.1M and Q1 2025 was $27.4M (historical references only).

Scorecard

ARR (quarter-end): $28.9M · Prior quarter ARR: $27.2M
Adjusted EBITDA: $5.1M · Margin: 16.2%
Cash balance: $16.2M · Net burn: modestly positive
Total employees: 218 FTE at March 31, 2026
Logo / revenue churn: deferred — analytics refresh scheduled for mid-Q2.

Go-to-Market Notes

Pipeline coverage for Q2 sits at 3.1x quota. Win rates in regulated verticals improved after SOC 2 Type II renewal. Competitive displacement deals lengthened by ~12 days on average.

- Enterprise ACV up 8% vs Q4 2025
- Net new ARR from expansions: $1.1M
- Two late-stage RFPs slipped into early Q2

Product & Engineering

Platform v4.2 shipped on schedule with improved audit logging. Reliability SLO for core APIs remained at 99.95% for the quarter.

Follow-ups for the Board

- Provide churn pack once customer analytics refresh completes.
- Approve hiring plan for two solutions architects in regulated verticals.
- Review pricing test for mid-market annual prepay discount.
