CONFIDENTIAL — Sagard portfolio company materials. Not for retailer redistribution.

Retail Landscape

Q1 retail sell-through was resilient despite promotional intensity at club and mass. Same-store sales finished +2.4% with online contributing 19% of revenue.

Category Mix — Net Sales

Category	Q1 2026 Sales	% of Total	YoY

P&L Summary

Revenue (net sales): \$112.8M

Adjusted EBITDA: \$13.9M (12.3% margin)

Cash balance: \$18.6M (disclosed this period)

Headcount: 2,040 FTEs across manufacturing and G&A

ARR is not a primary KPI for this consumer business model.

Unlike the Q2 board pack (which omitted cash), Q1 includes the full liquidity line after treasury closed the period books.

Trade & Supply Notes

Trade spend ran 40 bps above plan due to club-channel promotions. Cocoa and packaging cost inflation moderated vs Q4. Two SKUs were delisted at a regional grocery banner; pipeline replacements are in shelf-reset for May.

Board Follow-ups

- Approve H2 innovation slate (4 SKUs) with \$2.1M launch budget.
- Review club-channel margin waterfalls in the May deep dive.
- Confirm summer capacity plan for the Midwest plant.
