

# Veridian Cloud Systems

Board Update — Q1 2026

**Q1 2026**

Board Update · SaaS Portfolio Company

Submitted: April 15, 2026

CONFIDENTIAL — Prepared for Sagard. Contains forward-looking statements marked as such.

## Executive Highlights

Veridian entered 2026 with ARR of \$69.8M and finished Q1 at \$71.5M. Net revenue retention held above 110% as expansion motion in existing accounts offset modest logo churn.

- Q1 Revenue: \$16.9M
- ARR: \$71.5M (+\$1.7M QoQ)
- Cash: \$38.4M
- Headcount: 274
- Logo churn: 2.1% · Revenue churn: 1.6%

## ARR Bridge

| Component                                                               | Amount  | Notes          |
|-------------------------------------------------------------------------|---------|----------------|
| Opening ARR (Jan 1)                                                     | \$69.8M | Board-approved |
| New logo ARR                                                            | +\$1.4M | 11 logos       |
| Expansion ARR                                                           | +\$1.2M | Upsell / seats |
| Churn / contraction                                                     | -\$0.9M | 3 logos        |
| Ending ARR (Mar 31)                                                     | \$71.5M | —              |
| Internal Q2 ending ARR forecast: ~\$74M (projection only — not actual). |         |                |

P&L & Liquidity

| Metric          | Q1 2026 | Q4 2025 | Budget  |
|-----------------|---------|---------|---------|
| Revenue         | \$16.9M | \$16.1M | \$16.5M |
| Adjusted EBITDA | \$2.4M  | \$2.1M  | \$2.2M  |
| Cash            | \$38.4M | \$36.9M | —       |

## **Product & GTM Commentary**

Cloud observability SKU attach rate rose to 34% of new deals. Sales cycle length for six-figure ACV remained stable at 78 days median.

## **Risks & Asks**

- Hyperscaler partner co-sell motion slower than plan in EMEA.
- Ask: confirm Q2 hiring envelope for solutions engineers (+8).
- Follow-up: deliver cohort retention appendix with May board materials.
