

Cyberdyne Systems

Investor & Board Reporting Package **Q2 2026**

Quarterly Board Report
Submitted: June 30, 2026

PRIVATE & CONFIDENTIAL — For Sagard portfolio monitoring purposes only.

Executive Summary

Cyberdyne expanded enterprise ARR while maintaining disciplined operating expense. Net revenue for the quarter reflects platform upsells and a stable renewal base.

Prior year Q2 2025 net revenue was \$29.8M (for comparison). Management forecast for full-year 2026 recurring revenue exceeds \$32M (not actual).

Financial Performance

Net revenue reached \$34.2 million for Q2 2026, compared with \$31.5M in Q1 2026 (prior quarter — for reference).

Metric	Q2 2026 Actual	Q1 2026 Prior
Annual Recurring Revenue	\$30.5M	\$28.9M
Adjusted EBITDA	\$5.6M	\$5.1M
Cash balance	\$17.3M	\$16.2M

Operating Metrics

Total employees: 231 FTE across engineering and go-to-market at June 30, 2026. Prior year headcount (Q2 2025): 198 — historical reference only.

Churn metrics were not disclosed in this reporting package pending updated customer analytics.

Management Commentary

Product roadmap delivery remained on schedule. Sales pipeline conversion improved modestly versus Q1.

Risks & Follow-up

- Longer enterprise procurement cycles in regulated verticals.
- Follow-up: provide logo and revenue churn once analytics refresh completes.
- Competitive pricing pressure in mid-market segment.
